

Environmental Policy

ecomaine recognizes and accepts its responsibility for the environment as an integral part of its services and operations. **ecomaine** is committed to excellence and leadership in protecting the environment and will strive to achieve this objective through an effective Environmental Management System which adheres to the following principles:

Communication

ecomaine will provide training and education to our employees to ensure that we can work safely, efficiently, and in an environmentally sound manner. **ecomaine** will communicate Maine's Waste Management Hierarchy (reduce, reuse, recycle, compost, waste-to-energy, landfill) openly with employees, customers, and the public and will work openly with government, and regulatory agencies governing the company's environmental performance and improvement plans.

Compliance

It is **ecomaine's** policy to manage all of its activities to meet or surpass the standards of all relevant environmental laws and regulations and other requirements to which **ecomaine** subscribes.

Continuous Improvement

ecomaine will:

- establish measurable environmental improvement goals and targets and regularly audit and review environmental performance
- continually monitor and improve environmental performance in existing and new operations
- strive for cost effectiveness in environmental management by improving operations

Pollution Prevention

ecomaine will take into account the impact of its environmental aspects when making decisions and implement pollution prevention throughout the organization.
