

Did you know:
flexible plastic is
NOT recyclable at
ecomaine

So... What do I do with
**Plastic
Bags
& Films**???

In single-sort recycling,
plastics need to be three things:

- 1) Hard or rigid plastic that you can't crumple easily
- 2) A container - like a bottle, cup, or jug
- 3) Labeled with a  #1-7

If it's a (clean) bag, film, or wrap, you might be able to take it back to a local grocery or retail store!

They take...

bubble wrap &
air pillows
shopping bags
dry cleaning bags
bread bags
produce bags
Newspaper bags
zip-top baggies
overwrap
(for bulk water
bottles or paper
towels)
